

Infinity Multisport DF Tag

Introducing the new Trident 'Infinity' Multisport tag. The 'infinity' is one of the latest RFID tags to come from the designers at Trident. The 'Infinity' is a passive dual frequency tag that offers far superior performance to earlier DF Multisport tags.

Key Features

- Long read range (1.5m)
- Twin ferrite construction gives no "dead spots" over the mat
- Read rate of 16/sec
- Passive – so no battery is needed
- Robust waterproof construction (IP68)
- Two convenient slots for easy insertion into Ankle Strap
- Small form factor – just 43mm x 32mm x 11mm
- A small hole for a split ring allows for attachment to a dog collar
- Available with/without top quality neoprene ankle strap.
